

ONE YOU CAMPAIGN ASSETS

Using the Heart Age Test

Embedding the Heart Age Test enables you to talk about health without directing your audience away from your website.

Below are the instructions that you can share with your web developers to embed the test in your website.

To embed the test, use the following code:

```
<div id="tool_heart-age" class="tool_heart-age">  
<iframe id="heartage-container" frameborder="0" style="width: 100%; height: 600px;"  
src="//assets.nhs.uk/tools/heart-  
age/index.html?branding=bhf&skin=oneyou&behaviour=choices&syn_id=replace_with_  
your_id" scrolling="no"></iframe>  
</div>  
<script id="tool-script_heart-age" src="//assets.nhs.uk/tools/heart-  
age/js/inline_launcher.js"></script>
```

=replace_with_your_id": please update the syn_id= parameter in the snippet above with something that we can identify you with for our analytics system e.g.:

British Heart Foundation **=bhf**"

Daily Mail **=daily_mail**"

OneYou Plymouth **=oneyou_plymouth**"

If you are unable to embed the test, you can direct your audience to:

<https://www.nhs.uk/oneyou/be-healthier/check-your-health/heart-age-test>
